

Announcing the first 1000VDC Multiple Disconnect Safety System (MDSS)

*Integrate up to 8 individual
1000VDC load break
disconnects into one
Photovoltaic Safety System*

SAFETY AND PROTECTION FOR YOUR PHOTOVOLTAIC INVESTMENT

MDSS Product Features:

- ▶ 3 to 8 integrated 1000VDC disconnects into one compact enclosure
- ▶ Multiple 100A, 200A and 400A integrated disconnects into one compact enclosure
- ▶ CE marked at 1000 volts

Bentek Solar Multiple Disconnect Safety System (MDSS) is the first 1000 VDC system that allows up to 8 disconnects to be integrated into one safety system. This allows you to install just one Bentek Solar MDSS in place of 8 individual disconnects. This lowers the material and installation costs while providing safety and protecting the overall Photovoltaic investment.

MDSS Provides:

- ▶ Reduced material costs
- ▶ Reduced labor costs
- ▶ Reduced space requirements
- ▶ Complete safety isolation of Inverter fuses
