Bentek Solar Receives ETL Listing to UL 1741 and CSA 22.2 Certification for Its 1000VDC MDSS for Utility Scale Installations

SAN JOSE, CA — June 2011 – Bentek Solar, a leader in Balance of System (BOS) design and manufacturing for commercial and utility scale solar PV products, has received ETL listing to UL 1741 and CSA 22.2 certification for its 1000VDC Multiple Disconnect Safety System (MDSS).

“The 1000VDC MDSS is designed and manufactured for large utility scale projects. We are pleased with the overall market acceptance and customer response,” said Mitch Schoch, President and CEO of Bentek Solar.

The 1000VDC utility scale MDSS provides customers with:

- Reduced space requirements
- Reduced material costs
- Reduced labor costs
- Safety and protection to photovoltaic investments
- Complete isolation of the inverter fuses

Features of the 1000VDC utility scale MDSS include:

- From 3 to 10 integrated 1000VDC disconnects per MDSS
- Multiple 100A, 200A and 400A disconnects in one MDSS
- Enclosure is NEMA-3R + dust tight, with removable bottom panels for wiring
- Handles mounted internally or externally

“Our Multiple Disconnect Safety Systems are intended for installation next to the inverter. The MDSS provides customers with multiple UL 1000VDC load-break disconnects combined in one safe, compact, easy-to-install enclosure,” said Jim Peplinski, Chief Technology Officer at Bentek Solar.

For more information about Bentek Solar's 1000VDC Multiple Disconnect Safety Systems (MDSS) or to view online data sheets, please visit www.BentekSolar.com or contact John Buckley at 1-866-505-0303.

About Bentek Solar

Founded in 1985, Bentek is a leader in manufacturing and engineering solutions for complex electro-mechanical and power distribution systems for the semiconductor and solar industries. Bentek has applied these extensive capabilities and knowledge into a comprehensive family of standard and configure-to-order (CTO) solar combiner products. These solar combiners provide quality, ease of installation and safety to the solar industry. For more information, contact Bentek Solar at 866-505-0303, e-mail JohnB@bentek.com or visit www.BentekSolar.com.
