Bentek Solar's Circuit Breaker Bi-Polar Recombiners Receive ETL Listing to UL 1741 and CSA 22.2 Certification

SAN JOSE, CA — May 2011 – Bentek Solar, a leader in Balance of System (BOS) design and manufacturing for commercial and utility scale solar PV products, has received ETL Listing to UL 1741 and CSA 22.2 certification for its Bi-Polar Circuit Breaker Recombiners.

The Bi-Polar Circuit Breaker Recombiners were specifically designed and manufactured for bi-polar inverters. The Bi-Polar Recombiners provide both the positive and negative circuit breakers in one NEMA 3R freestanding enclosure, eliminating the need for two separate enclosures.

Bentek Solar's Bi-Polar Circuit Breaker Recombiners provide:

- Reduction of material costs
- Reduction of installation time
- Reduction in space required

Bentek Solar Bi-Polar Recombiners provide the final interface to bi-polar inverters on small to large commercial systems.

For more information about Bentek Solar's Bi-Polar Recombiners or to view online data sheets, please visit www.BentekSolar.com or contact John Buckley at 1-866-505-0303.

About Bentek Solar

Founded in 1985, Bentek is a leader in manufacturing and engineering solutions for complex electro-mechanical and power distribution systems for the semiconductor and solar industries. Bentek has applied these extensive capabilities and knowledge into a comprehensive family of standard and configure-to-order (CTO) solar combiner products. These solar combiners provide quality, ease of installation and safety to the solar industry. For more information, contact Bentek Solar at 866-505-0303, e-mail JohnB@bentek.com or visit www.BentekSolar.com.
