Bentek Solar Announces 25 Megawatt Utility-Scale Solar Product Supply Agreement with Signal Energy

SAN JOSE, CA — January 2012 – Bentek Solar, a leading designer and manufacturer of PV products that connect PV panels to the inverter for the commercial and utility-scale marketplaces, announces a 25 MW supply agreement with Signal Energy, a major utility-scale, design/build general contractor for the North American renewable energy industry.

Bentek Solar will supply Signal Energy with utility-scale (UTS) combiners, re-combiners, disconnect safety systems and accessories for 25 MW of solar projects in the Southwestern United States.

“We are pleased to partner with Signal Energy to provide innovative cost effective PV solutions for the utility-scale marketplace. We look forward to meeting Signal Energy’s customers’ needs with high reliability, high quality Balance Of System PV Solar products,” said John H. Buckley, Executive Sales and Marketing at Bentek Solar.

Ben Fischer, president of Signal Energy said, “Innovative solar products, like those from Bentek Solar, are extremely important to Signal Energy and our clients as we put our vision of building a clean energy future into action. The decreased cost of solar PV technology and increased volume of PV sold has elevated the competitiveness of solar with other sources of power. This is a win-win for the solar industry, the economy and power producers seeking to balance their generation portfolios.”

With more than 400 MW of renewable energy projects currently in progress, including more than 40 MW of solar projects in the U.S. and Canada, Signal Energy has

completed 40 renewable energy projects since 2005.

Signal Energy provides engineering and construction for utility-scale renewable energy projects ranging from 5 MW to 140 MW for clients including ENEL, BP Alternative Energy, Chevron, Amonix, Valero Energy, DeWind Co., SunEdison, Noble Environmental Power, WKN, Vestas and John Deere Energy.

About Bentek Solar

Founded in 1985, Bentek is a leader in manufacturing and engineering solutions for complex electro-mechanical and power distribution systems for the semiconductor and solar industries. Bentek has applied these extensive capabilities and knowledge into a comprehensive family of standard and configure-to-order (CTO) solar combiner products. These solar combiners provide quality, ease of installation and safety to the solar industry. For more information, contact Bentek Solar at 866-505-0303, e-mail JohnB@bentek.com or visit www.BentekSolar.com.

About Signal Energy

Signal Energy is a leading full service design/build contractor providing Engineering, Procurement and Construction (EPC) services for utility-scale renewable energy projects across North America. Signal Energy is the renewable energy subsidiary of EMJ Corporation, one of the largest general contractors in North America. For more information, visit www.signalenergy.com.
