Bentek Solar receives ETL listing to UL 1741 for its 1000VDC integrated disconnect string combiners one of the first in the PV marketplace

SAN JOSE, CA — August 2011 – Bentek Solar, designs and manufactures a wide range of PV products connecting the PV panel to the inverter for the commercial and utility scale marketplace announces it has received ETL listing to UL 1741 for its 1000VDC integrated string combiners.

“The 1000VDC integrated disconnect string combiners are designed and manufactured for large Utility Scale projects. We are pleased with the ETL listing to UL 1741 for our 1000VDC disconnect string combiners and the overall market acceptance and customer response of this new product,” said Mitch Schoch President and CEO of Bentek Solar.

1000VDC integrated disconnect string combiners product features provide:

- 10 to 20 strings per string combiner
- 250A and 400A 1000VDC integrated disconnects
- 500MCM lugs to support large wire gauges
- Optional Surge suppression

For more information about Bentek Solar’s 1000VDC integrated disconnect combiners or to view online data sheets, please visit www.BentekSolar.com or contact John Buckley at 1-866-505-0303.
