

American Recovery Reinvestment Act (ARRA) Section 1605

UPDATED: October 19, 2011

To our customers:

With our factory located in San Jose California, Bentek Solar is proud to announce that all of our solar products which include string combiners, disconnect safety systems, recombiners, connection kits and cabling for use on any American Recovery and Reinvestment Act (Section 1605) project will be made 100% in the United States making your project compliant with these guidelines.

Please let Bentek Solar know if we can provide any other documentation to ensure you that our products qualify for the American Recovery Reinvestment Act (ARRA).

Sincerely

A handwritten signature in black ink, appearing to read "John H. Buckley".
