Bentek Begins Shipment of NEC 2014 690.12 Rapid Shutdown Compliant Universal PowerRack-AL

SAN JOSE, CA — January 2015, Bentek, a manufacturer of a broad range of OEM power distribution products for the residential, commercial and utility-scale marketplaces, has begun shipment of the Bentek Commercial PV PowerRack-AL for three-phase inverters.

“Bentek is pleased to begin shipping our new three-phase commercial Inverter PowerRack-AL,” said John H. Buckley, Executive of Sales and Marketing for Bentek. “The PowerRack-AL is a cost effective, easy-to-install racking solution for three-phase commercial inverters.”

The universal PowerRack-AL provides a common design that fits ABB, Advanced Energy, Chint, Schneider, SMA, Solar Edge, SolarMax and Solectria three-phase inverters. The PowerRack-AL is adjustable from flat to 15, 20, 25 30 degrees to ensure minimal shading to PV panels and maximum inverter performance. The PowerRack-AL also has optional PE rated ballasted feet that can be used for high wind areas. These features insure a reliable, easy to install product that will meet or exceed local codes.

The Bentek Inverter PowerRack-AL can be shipped directly to any commercial jobsite where three-phase inverters can be integrated and installed on commercial rooftops. Bentek also can integrate commercial three-phase inverters and Bentek AC disconnects in its ISO 9001:2008 factory and ship the Bentek Inverter PowerSkid directly to the commercial jobsite. Bentek

PowerSkids, when installed within 10 feet of the PV array, allow for NEC 2014 section 690.12 Rapid Shutdown code compliance while saving the customer time and money in simplifying the installation.

For more information about the capabilities of the Bentek Inverter PV PowerRacks and PowerSkids, please contact Bentek at 1-866-505-0303 or visit www.Bentek.com.

About Bentek

Founded in 1985, Bentek is a leader in engineered electromechanical and power distribution solutions for industrial applications. Bentek designs and manufactures products such as wiring harnesses, electrical combiner boxes, and custom OEM assemblies for the solar energy and semiconductor markets. Bentek is an ISO certified company. For more information, contact Bentek Solar at 866-505-0303, e-mail SolarSales@bentek.com or visit www.Bentek.com.
